

Beyond Custom Homebuilding Is Couture.

Where Value and Accountability Meet Style and Sophistication.

Uncommon Homes. Uncommon Value.

Welcome to the New Standard of Luxury Homebuilding.

C

Uncommon Homes. Uncommon Value.

Couture Homes is an uncompromising bespoke home builder as unique as you are. Our singular goal is to design and craft extraordinary new luxury homes, with an unmatched customer experience, in Florida's finest communities. Designed from the outside in, using an integrated approach to designing, building and furnishing luxury homes, we have created a customer-centric home building experience focused on delivering unmatched value. It begins with our uncommon, 5-Star approach to building your home.

Couture Lifestyle Collection

The Lifestyle Collection homes utilize our proprietary Lifestyle Discovery Process™ to create a home in perfect harmony with you. Our Lifestyle centric approach is unrivaled with each home designed completely around your lifestyle, your way of being, your style, and your tastes. It begins by traveling to your existing homes where we study the way you live using ethnographic techniques. Working through an extensive set of conversations and exercises, we see beyond the obvious and venture deep into your life story and preferences. Your lifestyle is then mapped and

designed into every facet of your Couture home – from floor plan and elevation designs to colors, textures and finish selections. It is truly a 5-Star, bespoke homebuilding experience, unlike any other.

Couture Designer Collection

The Designer Collection homes utilize our proprietary Visioneering process to develop an overall concept for your home - we'll capture your unique vision, values and criteria. We work with you to develop this narrative for your home and then we assemble a world-class team of architects and designers who specialize in your style to bring your vision to life. Details are left

to the global professionals. This approach caters to architecturally sophisticated clients who appreciate buying a home much like they would fine art or Haute Couture fashion. It is the ultimate approach to luxury homebuilding, capitalizing on the creativity of the world's finest artisans to create a home which is the epitome of style and sophistication. Our Designer Collection homes are designed for the runway, not the rack.

A Home For Next Season.

Whether inspired by timeless tradition or reflecting the utmost in modern sophistication, each Couture home is created around your lifestyle or vision with enduring style and expert craftsmanship. Each home also comes with a promise of “a home for next season.” We utilize 3D design techniques, lean building practices, and precision high-tech scheduling processes to move you home to completion in a way that doesn’t compromise quality, while enhancing deliverability.

Where We Build.

For those who will settle for nothing less than the perfect fit in a home, Couture Homes is now building in Palm Beach and Broward Counties and Orlando.

Couture The New Standard

“The team at Couture Homes are professionals in every sense of the word. What we thought would be impossible--building a house a thousand miles away--has become a joy filled experience. Couture Homes is the new hallmark of Florida custom homebuilders.”
